First published in 1920, this book is a translation-the only known work of British scholar CLARENCE EDWIN ROLT (1880-1917)-of *On the Divine Names and The Mystical Theology*, by Dionysius the Areopagite, a first-century bishop of Athens. The author is often also referred to as "pseudo-Dionysius" because a variety of anachronisms suggest that the manuscript was actually written much later by an unknown writer. Despite the book's unclear origins, the writings are still greatly valued for their theological insight. Saint Thomas Aquinas often quoted from pseudo-Dionysius, as did many other famous and influential theologians and philosophers. Pseudo-Dionysius deals, here, with the Supra-Personality of God. Personality, by definition, is a quality limited to an individual. God, on the other hand, is the opposite of an individual. God is in all things, so one cannot speak of a personality for the divine. Rather, pseudo-Dionysius proposes a Supra-Personality, which describes aspects and qualities of the universal being. Religious scholars and Christians wanting a different understanding of the relationship between God and the universe will find this a challenging but ultimately thought-provoking study.

This successful text puts personality back into the personality course, integrating the classic insights of the personality theorists with modern research in a manner that will fascinate and captive students. Organized around eight basic aspects of personality-psychoanalytic, ego, biological, behaviorist, cognitive, trait, humanistic, and situational/interactionist-the text both explains the classic theories and also explores how the information applies to the student reader. The text presents a balanced, critical, yet optimistic approach. Personality encourages critical thinking about human nature. While holding the highest scientific standards, the text uses unique and provocative pedagogical devices (see below) to capture students' interest and bring the field of personality to life. It has been hailed as the best-written and most relevant personality textbook in the field.

After disassembling and gutting your car, it is easy to feel that you're in way over your head when it comes to the upholstery. This is why so many do-it-yourself restorers outsource the work, at considerable expense, to an experienced upholstery shop. Taking the time to acquire the skills for upholstery restoration may feel like a daunting task, but what if an experienced upholsterer presented every skill you needed to restore upholstery yourself? Starting with a list of necessary tools, author Fred Mattson guides you through all the required tasks, including seat restoration; door panel removal, patterning, assembly, and installation; headliner removal and installation; carpet cutting; and even convertible top restoration. The easy-to-

follow step-by-step presentation allows for a thorough understanding of all the processes. Every photo in this book provides a hands-on approach that shows you how to repair and restore a car's interior to concours, show-quality specifications. Other restoration books may show you beautifully restored interiors, but they don't show you how to produce them. This book helps you develop the skills needed with instruction from a professional upholsterer, saving you thousands of dollars over outsourcing the restoration. If you are interested in saving money, doing a complete restoration yourself, or simply want to know how it's done, this book is a handy addition to your automotive library.
