Essentials of Corporate Finance by Ross, Westerfield, and Jordan is written to convey the most important concepts and principles of corporate finance at a level that is approachable for a wide audience. The authors retain their modern approach to finance, but have distilled the subject down to the essential topics in 18 chapters. They believe that understanding the "why" is just as important, if not more so, than understanding the "how," especially in an introductory course.

Essentials of Financial Management is a paperback edition of an Open Access e-textbook suitable for students with limited knowledge of finance and financial markets. It answers the main questions of a corporate entity, such as how businesses finance their activities, how they select projects to invest in, the distribution of net cash flow and, of increasing importance, how businesses manage price risk relating to cost of goods sold or a decline in revenue. In providing invaluable guidance to finance, management and business students, Essentials of Financial Management employs two main philosophies: that finance is a real-life subject and that finance is a numerical subject, which is why this brilliant e-textbook contains real world examples as well as numerous Excel spreadsheet solutions for students to download and use.

This supplement outlines the key sections of each chapter, provides students with self-test questions, and also provides a set of problems and solutions similar to those in the text and in the Test Bank. Because many instructors use multiple-choice exams, we include coverage of exam-type questions and problems in the Study Guide.

Instructor's Manual for Essentials of Managerial Finance, Third Edition Cengage Learning

Running public sector organizations requires specialist accounting and finance skills to overcome the unique challenges of the sector. Citizens rely on their governments to provide a wide range of public services from an inevitably limited budget and therefore the better that the public money is managed the more services that can be delivered. Just as there is no single best way to manage a business there is no single best way to manage public finances. Co-published by the Chartered Institute of Public Finance and Accountancy (CIPFA), the world's leading professional public finance accountancy body, *International Public Financial Management: Essentials of Public Sector Accounting* provides an expert introduction to public sector accounting and finance. This book was conceived to accompany CIPFA's International Public Financial Management (IPFM) qualifications as a resource for students that seeks to capture the essential elements of the modules they study, and reflects good practice as put forward by CIPFA in its examination syllabuses. Students of public management and public sector accounting will find this a useful text. Practitioners working in the public sector will also find this concise book vital reading in seeking value for money in providing public services.

Airline Management Finance: The Essentials is of significant benefit to airline industry practitioners seeking a focused, neatly contained and accessible resource that provides explicit financial information pertinent to their current or future role. The book explains and de-mystifies an airline's financing and the financial reporting of its operations to airline staff and others. It seeks to explain the role of finance and the Finance Department in a non-technical way, so staff can appreciate the value of the department and its information resources, and see finance as an active contributor to

the airline's operation. It concentrates on practical matters, explaining frequently used financial and accounting terms, how financial strategy works, the uses of various types of financial reporting, as well as what financial risk is and how it can be managed through the co-operation of finance and operating staff. Staff who understand the airline's finances and financial system are more likely to make decisions which align with the airline's strategy and objectives. They will also know how to use the financial information which is available. The book establishes a good foundation of financial knowledge for all staff. This book is recommended reading for new employees in airline finance and related areas, as well as those starting to move up the supervisory ladder in an airline.
