Law Institute Journal Crowood

The thrilling new book from New York Times bestselling author David Mack, 24: Rogue. The time is 8:00 PM. Jack Bauer is a man without a country, a fugitive hunted by the most powerful nations in the world. He lives on the run, survives by his wits, and finds purpose in his exile by waging a one-man war against those who profit from the deaths and sufferings of others. On a self-imposed crusade to destroy the criminal empire of international arms dealer Karl Rask, Jack has infiltrated the crew of one of Rask's freighters. But his mission is disrupted when the ship is hijacked by a band of suspiciously well-informed pirates off the coast of Somalia. As Jack fights to free the ship, he discovers a deadly secret hidden in its hold: a prize the pirates were hired to steal, and that could be used to ignite a world war-unless Jack captures it first. The Complete Story Forge Books

In this new view of the Citroen story, automotive/aviation writer and design specialist Lance Cole investigates not just the details of the cars of Citroen, but the aeronautical and cultural origins that lay behind Citroen's form and function. The book digs deep into the ethos of Automobiles Citroen to create a narrative on one of the greatest car manufacturers in history. Using interviews, translations, archive documents and specially-commissioned photographs, the Citroen journey is cast in a fresh perspective. It explains in detail the influences upon Citroen design: Voisin, Lefebvre, Bertoni, Boulanger, Mages, Opron and recent Citroen designers such as Coco, Blakeslee and Soubirou. As well as all the men of the great period of 1920s-1970s expansion, it also cites less well-known names of Citroen's French engineering, design, and influence such as Cayla, Gerin, Giret, Harmand, Dargent and others, to give a full picture of Citroen heritage. The book provides in-depth analysis of all major Citroen models with an engineering and design focus and profiles key individuals and cars up to the present day and Citroen's 'DS'-branded resurgence. It features many newly commissioned photographs, rare archive drawings and interviews with Citroen owners. Researched amongst leading Citroen experts and restorers, Lance Cole provides a fresh perspective on the Citroen car manufacturer, its design language and the legacy of its extraordinary engineering which will be of great interest to all Citroen and motoring enthusiasts. Superbly illustrated with 329 colour photographs, many newly commissioned along with rare archive drawings.

The Citroën DS was selected by motoring experts and the public as the most beautiful classic car of the twentieth century. French designer Flaminio Bertoni's 'Goddess' is considered a work of art, a sculpture on wheels. Some even called it the Sydney Opera House of motoring. Released in October 1955 in Paris, France, the first DS19 to arrive in Australia stunned onlookers at the Sydney Royal Easter Show in 1956. Its most notable innovation was the suspension,

allowing the car to go 'up and down'. But there were many more outstanding features that made it such a seductive car. Many DS models came to this country from 1956 to 1975. As Citroën celebrates a hundred years since its launch, it is fitting to record the untold stories of the importers, distributors, owners, mechanics, racing drivers, restorers, artists and many more behind the story of the DS in Australia. With over 750

photographs, 120 original illustrations and exhaustive research, the authors have given voice to a definitive history of the Citroën DS in this country, capturing the essence of this stunning design and engineering marvel.
