One of music's true

global superstars and most admired figures, Elton John has sold an estimated 200 million albums worldwide to date, and continues to appear regularly in the singles charts, thanks largely to a series of high-profile collaborations with new faces. But he is loved as much for his outrageous personality and witty outspokenness as for his music: recent memorable outbursts have included a public comment that "people who charge £75 and lip-sync should be shot" and calling some pushy photographers "rude, vile pigs." He has even admitted that, in one of his more comedic cocaine-fueled moments, he phoned one of his management team "to tell him to do

something about the wind outside my hotel room." Such shamelessness and sheer silliness rivals anything uttered by punk rockers, yet it is so typically Elton: honest and wittily intemperate. Tragedy and heartbreak have played a large part in his life too. Behind the parties, the hedonism, the lavish stage costumes and silly glasses lies a more somber story. There have been disputes with managers, legal wranglings, splits with partners, and a divorce. Added to that there have been serious health problems, a very public battle with his expanding waistline and receding hairline, drug addictions, and spells when he wanted to quit the music

business altogether. But now, at 60 years old, Elton enjoys a stable relationship with his husband David Furnish. His demons have been overcome. His commercial and critical stock is rising. With popular acts like the Scissor Sisters sounding more like Elton than Elton himself, Elton John is finally cool again. Drawing on many firsthand interviews with his associates and musical collaborators, this page-turning story of high drama and prodigious talent traces Elton's astonishing journey through life as the colossus of camp, while also offering a critical history of his work and analyzing afresh his contribution to popular music.

When two old friends died unexpectedly, Rick Schatzberg spent the next two years photographing the remaining group of a dozen men. Now in their 67th year, they have been close since early childhood. Schatzberg collected vintage photos that tell the story of this shared history and uses them to introduce each individual as they are today. These are paired with large-format portraits which connect the boy to the man. Mixing in text with these images, Schatzberg depicts friendship, aging, loss, and memory as the group arrives at the threshold of old age. The Boys juxtaposes elements of place, personal history, and identity. The people

and locale described are a specific product of the mid-20th-century suburban American landscape, but the book's themes are radically universal.

Beyond the Pale

Chicago Review Press  
1939 HOLLYWOOD--THE LAND OF DREAMS FOR MANY, A PLACE OF NIGHTMARES FOR SOME. One hundred young women, seeking the elusive stardom of the silver screen, have come up missing without a trace. With Hitler and Tojo running rampant across the

globe, and with the world falling apart around them, it will be up to the men and women of the Sunset Detective Agency and investigator, Samuel Dalhart, to come up with the answers to the most complex series of disappearances ever to hit the glittered sidewalks of Los Angeles. Coming to the defense of a Hollywood legend centered in the sights of not only the L.A. Police Department, but J. Edgar Hoover himself, Dalhart and his band of investigators must clear the greatest star of the century, Charlie Chaplin, against the assault of law enforcement looking for someone to blame, and the "Little Tramp" is their target. With a huge cast of Hollywood legends rivaling any

movie script, the trail that is followed leads to the inescapable conclusion that something has arrived in Los Angeles and a most evil and ancient legend has come with it. With cameos from the most achieved actors of their time, the stars themselves become embroiled in an unbelievable reality that has escaped the very pages of Universal Studio's most famous horror movies. The die has been cast and the Sunset Detective Agency will be plunged into a battle against a blackness that has found sanctuary in the most brightly lit corner of the globe-- Hollywood. The beast has escaped the insanity of Europe and is now stalking its new prey, an easy hunt of the young women who

only wished to find fame and fortune in the movie capital of the world. The dark nights are closing in and the brightest lights of the city cannot keep this ancient legend at bay, and the hunt for this beast will set up the greatest battle of Good vs. Evil ever conceived in the place known for its glitz and glamor--Tinseltown. The monster of film land is here and he is very hungry.

"Jews and the study of antisemitism are often disregarded in multiculturalism in the United States. This "brushing aside" of the Jewish community places Jews in a very difficult situation because, due to continued discrimination and

prejudice, Jews need recognition and acceptance in the multicultural community. While light-skinned American Jews are often perceived as White, they are positioned between being considered White and somehow less than when they are found to be Jewish. Therefore, Jews find themselves in this nebulous "space between" the Black/White binary. This text takes a personal approach to the study of Jewish people, antisemitism, and the inclusion of the Jewish experience into university multicultural discourse. It also introduces a new Jewish critical race framework that develops from Critical Race Theory and has similarities in the fight

against racism and injustice in U.S. society. The Jewish Struggle in the 21st Century: Conflict, Positionality, and Multiculturalism addresses the needs of the Jewish community in the United States as it pertains to its tenuous position in the fields of multiculturalism and critical race studies. It addresses the lack of representation in the diversity and multicultural education classroom as well as issues of antisemitism at the university level"-

**Mining and Quarrying in Neolithic Europe** SAF Publishing Ltd

The social processes involved in acquiring flint and stone in the Neolithic began to be considered over thirty years ago, promoting a

more dynamic view of past extraction processes. Whether by quarrying, mining or surface retrieval, the geographic source locations of raw materials and their resultant archaeological sites have been approached from different methodological and theoretical perspectives. In recent years this has included the exploration of previously undiscovered sites, refined radiocarbon dating, comparative ethnographic analysis and novel analytical approaches to stone tool manufacture and provenancing. The aim of this volume in the Neolithic Studies Group Papers is to explore these new findings on extraction sites and their products. How did

the acquisition of raw materials fit into other aspects of Neolithic life and social networks? How did these activities merge in creating material items that underpinned cosmology, status and identity? What are the geographic similarities, constraints and variables between the various raw materials, and how does the practise of stone extraction in the UK relate to wider extractive traditions in northwestern Europe? Eight papers address these questions and act as a useful overview of the current state of research on the topic.

Before his mysterious disappearance and probable death in 1971, Oscar Zeta Acosta was famous as a Robin Hood Chicano lawyer and notorious as the real-life model for Hunter S. Thompson's "Dr. Gonzo," a fat, pugnacious attorney with a gargantuan appetite for food, drugs, and life on the edge. Written with uninhibited candor and manic energy, this book is Acosta's own account of coming of age as a Chicano in the psychedelic sixties, of taking on impossible

cases while breaking all the rules of courtroom conduct, and of scrambling headlong in search of a personal and cultural identity. It is a landmark of contemporary Hispanic-American literature, at once ribald, surreal, and unmistakably authentic.

These are the songs that we have listened to, laughed to, loved to and laboured to, as well as downed tools and danced to.

Covering the last seven decades, Stuart Maconie looks at the songs that have soundtracked our changing times, and – just sometimes – changed the way we feel.

Beginning with Vera Lynn's 'We'll Meet Again', a song that reassured a nation parted from their loved

ones by the turmoil of war, and culminating with the manic energy of 'Bonkers', Dizze Rascal's anthem for the push and rush of the 21st century inner city, The People's Songs takes a tour of our island's pop music, and asks what it means to us. This is not a rock critique about the 50 greatest tracks ever recorded. Rather, it is a celebration of songs that tell us something about a changing Britain during the dramatic and kaleidoscopic period from the Second World War to the present day. Here are songs about work, war, class, leisure, race, family, drugs, sex, patriotism and more, recorded in times of prosperity or poverty. This is the music that inspired haircuts and dance

crazes, but also protest and social change. The companion to Stuart Maconie's landmark Radio 2 series, The People's Songs shows us the power of 'cheap' pop music, one of Britain's greatest exports. These are the songs we worked to and partied to, and grown up and grown old to - from 'A Whiter Shade of Pale' to 'Rehab', 'She Loves You' to 'Star Man', 'Dedicated Follower of Fashion' to 'Radio Ga Ga'.

 Given the phenomenal fame and commercial success that the Beatles knew for the entire course of their familiar career, their music per se has received surprisingly little detailed attention. Not all of their cultural influence can be traced to long hair and flashy clothing; the Beatles had numerous fresh ideas about melody, harmony, counterpoint, rhythm, form, colors, and textures. Or consider how much new ground was broken by their lyrics alone--both the themes and imagery of the Beatles' poetry are key parts of what made (and still makes) this group so important, so popular, and so

imitated. This book is a comprehensive chronological study of every aspect of the Fab Four's musical life-- including full examinations of composition, performance practice, recording, and historical context--

during their transcendent late period (1966-1970). Rich, authoritative interpretations are interwoven through a documentary study of many thousands of audio, print, and other sources.
